

# YOU Can Make A Difference!

## An Outline for Taking Action 4-H Capitol Experience

What is the issue that you are concerned about?

What do you think needs to be done? Why?

What do you need to know before you take action? Where can you go for information?

What group or groups might you work with on this issue?

What do you know about opposing views on this issue? Why do people feel differently about this?

What are the best strategies for taking action?

*(Note: it should be a combination of approaches: writing a letter, phone calls, working with a group, testimony, letters to the editor, meetings with different people involved in the issue, petitions, demonstrations, etc.)*

*What are your plans for working on this? What is your timeline?*

**Good Luck, and Don't Give Up!**
